

M⁺ Mill Plus

MILL PLUS

Mill Plus is the most advanced and complete feed mill and premix automation system serving the Asian market. It is designed to be simple to operate but provide sophisticated levels of automation throughout every stage of the production process from gate to gate.

FEATURES :

- Complete feed mill process automation and truck management system
- Can be integrated and control any machinery and equipment
- Comprehensive and versatile reporting system
- Data can be easily integrated with management information systems
- Provides multiple management reports
- Robust Traceability and Cross contamination control
- Can be implemented in any existing mills or new builds
- Multi batching capability

BENEFITS :

- Optimization of Feed Mill Production Capacity
- Provides Reports Necessary to Manage a Feed Mill Efficiently
- Optimize Manpower Resources and Reduce Human Errors
- Minimize Stock Discrepancies
- Meets International standards for Traceability and Food Safety
- Maximize Profits
